Kethu	118-121
Miscellaneous	122-127
Case Study of an Horoscope	128-129
Important Note	130

PREFACE

Astrology is an ancient science, where the hidden answers are brought to light by using different principles and combination of planets. Great Indian astrologers have refined the principles in so many ways and have brought many new methods of predicting. Human brain is like a wonderful computer which throws light on so many new things when we go through the writings of great astrological seers of India.

This book is also a conception of my study of Naadi Astrology by Sage Brighu. The Naadi study made me creative in my thoughts because in Brighu Naadi the Ascendent (Lagna) is not taken into consideration. Starting from Aries (the head) to Pices (the feet) each sign has a different function and signification and the planets Rahu and Kethu are called as the family circle, or roads in front of the house in which the native took birth, etc. After going through this type of study, it occurred to me to gather all the combinations and place them in a format wherein it will be useful for all astrologers. In this method we can know the incidents which are supposed to happen or occur in a native's life without much calculations and with less usage of principles. With these combinations one can easily know the age of marriage, nature of profession, nature of parents, financial development of the native, age at which the native will purchase land or house, death of the parents, etc. and these above mentioned happenings can be known without much strain and calculation in a fraction of a second.

Hence, I am placing this wonderful piece of work for your kind reception. I am greatly indebted to Lord Ganesh for the blessing he has given me and my grandfather Sri. Venkataram Shastry, for the inspiration given to me in my struggle of completing this masterpiece. This work is only my effort of decoding the mystery of the planets and its movements by searching the subjects of “Brighu Naadi”.

Hoping this wonderful work will help the astrologers as well as readers of astrology to a great extent.

Saturn in Sagittarius having Mars next to him and Venus and Mercury in Aquarius.	The native will be dealing in wines and liquors.
Saturn in retrograde having Mercury and Venus in the 11th house.	The native will have good name and fame and earns very good money with rise in career.

Case Study of an Horoscope

			Mars
Kethu			
			Rah Asc
Jup. Sat.		Moon Ven	Sun Mer

The native of this horoscope is born in a village, this can be known by Jupiter and Saturn in Sagittarius (forest sign). Rahu and Kethu in Leo and Aquarius shows that the road in front of the house in which the native was born was running from East to West. Sun in Virgo is with Mercury and has Mars in the 10th house to Sun, this shows that the native's father was a priest and was learned in mantras (Jupiter aspects Mars in Gemini). Sun has 2 female planets in the 2nd house to Sun, this shows that the native's father had two wives. Mars staying outside the Rahu Kethu circle, tells that the native's brother is the step brother. Sun has Saturn in his 4th house Saturn and Jupiter which says that the native's father had lot of problems in maintaining the family. Jupiter in Sagittarius say that the native had dual mentalities. The native suffered ill-health at the age of 2-3, as Kethu was in 3rd house to Jupiter. Venus with Moon (8th house lord) says that the native escaped downing in waters at the age of 8. The native lost

his grand father when he was 20 years old, when Saturn touched 10th house from Moon. The native got the job when he was 21 years old. This happened when Saturn touched Rahu in Leo at the age of 21. Jupiter with Saturn aspected by Mars from 7th house, shows that the job was a typing job in a Bank. The native gets married at the age of 22 when Jupiter in his second round touches Venus in Libra. The native has his first child at 24 when Jupiter's 5th house lord will aspect Jupiter from Gemini. The native had his 2nd child at the age of 31 when Jupiter touched Mars (the 5th house lord from Jupiter) in Gemini. The native lost his father at the age of 31 when Saturn aspects Sun's 8th house lord in his 2nd round of transit. The native resigned the first job at 43 when Saturn aspects Rahu in Leo (birth chart) from Gemini. Kethu was in 3rd house to Saturn, shows that the native was also an astrologer, so, he continued astrology after resignation of Bank's job. When Saturn touched Mars in Gemini with Mercury in Virgo in 4th house to Mars, the native became a writer and started writing books.

So, the above said method is the way of knowing the incidents/ timing of events after referring to the combinations and other significations.
