

*H*e is credited to having developed a completely new system of prediction within the KP system. His Guru was the Legend of Legends, Late Jyotindra Hasbe hailing from Maharashtra, India. He started studying Krishnamurthi Paddathi (KP) with him in 1979 and then formed his 4 step theory which has so far been taught to 15000 students in Maharashtra. Written and published own books in Marathi language titled 1.Vivah Yoga 2.Nakshtra Sandesh 3.Nakstra Prabha.

"Simple Rules of 4 Step Theory"

By

Sunil Gondhalekar, India.
(As submitted in Dec 2007)

In this theory only strong bhava's represented by planet is taken for considering prediction.

Rule 1:

(a1) If there are no other planets in the star of this planet then the house in which the planet resides will become the strong significator of that house (Even if there are other planets in that house).

(a2) If there are no other planets in the star of this planet it becomes strong signifier of the houses owned by it, provided there are no other planets in that house. (Ignore Uranus, Neptune & Pluto) else it becomes secondary signifier of that house. KSK (Krishnamurthy) says "Tenants are stronger than owner".

(a3) If there are other planets in the stars of this planet then it becomes only secondary signifier of both the house it resides in and of the houses it owns.

(a4) If the planet is in own stars (star lord is same) then irrespective of other planets being in its stars, it becomes strong signifier of the house it resides in, even though there are other planets in that house. This planet will become the strong signifier of the houses owned by it provided those houses are empty.

This completes our First Step.

Rule 2:

A planet predominantly gives the results indicated by its star lord.

This is the most important rule of KP. So the house occupied by this star

lord is strongly signified, even though there are other planets in that house. He however becomes strong significator of house owned if the houses are empty.

This completes our Second Step.

Rule 3:

KSK has invented "sub lord" and given importance whether planet will offer favorable - unfavorable results. That means 'sub' has got capacity to give results. So consider same rules we apply for the main planet, which is for step 1. So our Rule 3 is: for Step 3 apply same rules as for step 1.

This completes our Third Step.

Rule 4:

KSK has mentioned in Reader No. 3 page 137, "If a planet is the significator of lagna bhava, it gives long life, success in attempts, it helps to maintain good health, if the sub lord is not the significator of 6 or 8 or 12". The word used by KSK is significator that means, to see his star lord also. This is what I understood from KSK statement. Hence all the rules applicable to step 2 will in totality apply to the 4th step.

Rule 5:

KSK has given importance to cusp of the house. So planet near to cusp (within orb of 30-20') affect the strong signification of that cusp. Even if planet is having star in it, it will offer the cusp result strongly.

Rule 6:

While considering conjunction or aspect we will consider this with an orb of 30-20'. Aspect of planet is considered only on cusp with 30-20' orb and not on house.

Rule 7:

When Rahu / Ketu is the star lord of a planet / sub, then it gives results of conjunction / aspect / star lord / sign lord in ascending order.

Rule 8:

The event will materialize only when Dasa, Bhukti and Antara jointly strongly signify all the 3 houses.

Rule 9:

If planet is totally negating the relative event's houses on step 3 - 4 then the Dasa will not fructify the matter. If planet is the cuspal sub lord then the event will never happen. These are the simple rules, if followed properly no need of RP is required.

- Issue Matters -

According to KSK's teaching, the 5th sublord is considered. If it is the significator of the 2nd or 5th or 11th house, then birth of a child is assured. Shri KSK also has recommended that a Lady's chart should be preferably studied. Along with the houses 2, 5 & 11 the 9th (5th from 5th) is also a supporting house, in many cases. Now to time the event, we study the following example.

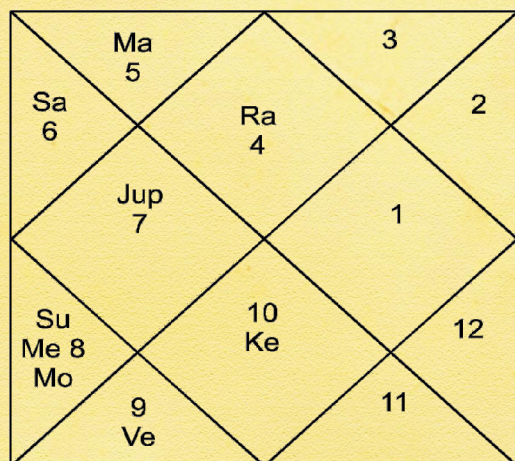

In this chart Mars is the sub-lord of the 5th cusp. The strong significations of this are:

* MARS :
 Star Lord of Mars - Sun : 4
 Sub Lord of Mars - Moon : 5-1
 Star Lord of Moon - Merc : 4

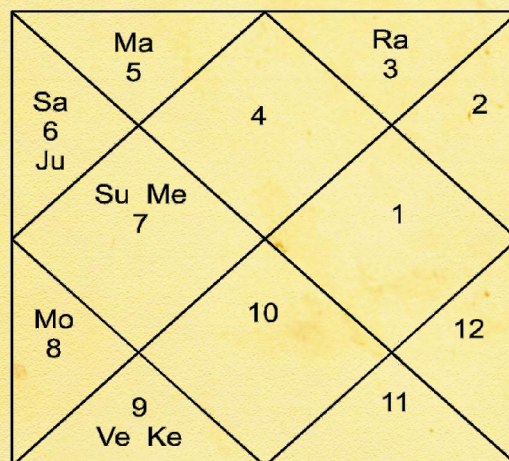

Here Mars has become principle significator of 5th in the 3rd step. So it is definite that the lady will have children.

	Pisces	Aries	Taurus	Gemini		Planet	Star Ld	Sub
Pisces	IX 20-30-17	X 22-27-46	XI 23-44-45	XII 23-43-2	Gemini	Su	Sa	Mo
						Mo	Me	Ma
Aquarius	VIII 20-7-36	Chart No. 12 Female 27-11-1981, 22.55 IST 18°-14' N, 75°-42' E Barsi, Solapur KP 23°-29'-54' (Courtesy : Shri Shrikant Sutra)		Ra 1-30-37 I 22-55-12	Cancer	Ma	Su	Mo
Capricorn	VII 22-55-12 Ke 1-30-37			II 20-7-36 Ma 27-25-19	Leo	Me	Sa	Sa
						Jup	Ma	Mo
						Ven	Su	Mo
Sagittarius	Ve 27-48 VI 23-43-2	Mo 23-57-12 V 23-44-45 Su 11-53-27 Me 4-41-45	IV 22-27-48 Ju 6-37-28	III 20-30-17 Sa 25-20-19	Virgo	Sat	Ma	Ra
						Rah	Ju	Ra
						Ket	Su	Ju
						5	Me	Ma
	Sagittarius	Scorpio	Libra	Virgo				

No Planet in stars of
 Moon - Venus - Rahu - Ketu

Lagna Chart

Cusp Chart

This lady was married on 15th Dec. 2003. At that time, the Dasa of Venus was running and it was up to 13-8-2016. Let us find out whether the Dasa Lord Venus indicates child birth or not. The signification of Venus is as under: -

• VENUS	: 6-11
Star Lord of Ven - Sun	: 4
Sub Lord of Ven - Moon	: 5-1
Star Lord of Ven - Merc	: 4

Here Venus is the strong significier of 5, and 11. Also he strongly signifies the adverse house 1, 4, 6. But since it is the significier of 5 and 11, the dasa is favorable for child birth. She is already married in that Dasa due to signification of 11 and also 5.

Now let us see the Bhukti. During marriage the Bhukti of Rahu from 14-10-2003 upto 14-10-2006 runs. Let us see the signification of Rahu.

* RAHU	: 12 (Moon 5-1)
Star Lord of Rahu - Jup	: 3-9
Sub Lord of Rahu - Rahu	: 12 (Moon 5-1)
Star Lord of Rahu - Jup	: 3-9

Here the Bhukti Lord had become strong significator of the Main 5th house and also of the supporting house no. 9. So child birth should take place in the Bhukti.

The Dasa Lord strongly signifies 5 and 11, the Bhukti Lord strongly signifies the 5th & 9th house. So while selecting the Antara we will have to give preferences to some other planet who has strong significator of 2nd house. The Antaras of the bhukti are as under (ENDING DATES)

Rahu	26-3-2004
Jupiter	19-8-2004
Saturn	9-2-2005
Mercury	14-7-2005
Ketu	16-9-2005
Venus	18-3-2006
Moon	11-8-2006
Mars	14-10-2006

We have to respect Nature, and cannot consider child birth within 9 months of marriage. So we do not consider the Jupiter antara. We will check the Antara lords after Jupiter.

* SATURN	:
Star Lord of Sat - Mar	: 2-10
Sub Lord of Sat - Rahu	: 12 (Moon 5-1)
Star Lord of Rahu - Jup	: 3-9

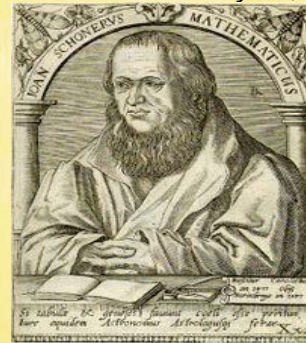

* MERCURY	:
Star Lord of Merc - Sat	: 3-7
Sub Lord of Merc - Sat	: ---
Star Lord of Sat - Mars	: 2-10

* + KETU : 6 (Sat 3-7)
 Star Lord of Ketu - Sun : 4
 Sub Lord of Ketu - Jup : ---
 Star Lord of Jup - Mars : 2-10

Mars by his 4th house aspect, aspects the 5th house and also Moon. So we will have to take this into account also, while finding significators of the house. Hence Sat, Merc, Ket, Ven, Rahu, Moon and Mars all become strong significators of 2nd and 5th houses. In such a case how are we to select the correct Antara Lord?. Here KSK's teaching that Nodes are stronger than planets, come to our rescues. On this basis we select the Ketu Antara from 14-7-2005 to 16-9-2005. In actuality a female child was born on 8-8-2005, by caesarian. **This goes to prove the KP principle Nodes are stronger than planets.**

Johannes Schöner (January 16, 1477 in
 Karlstadt am Main – January 16, 1547 in

Nürnberg) (aka, Johann Schöner, Jean Schöner, Joan Schoenerus) was a renowned and respected German Humanist Renaissance Mathematicus. It is best to refer to him using the usual 16th century Latin term mathematicus as the areas of study to which he devoted his life were very different from those now considered to be the domain of the mathematician. He made some of the oldest globes still in existence. Some of them show areas before they were discovered, like the Magellan Strait and the Antarctic. He was an astronomer, astrologer, geographer, cosmographer, cartographer, mathematician, globe and scientific instrument maker and editor and publisher of scientific tests. In his own time he enjoyed a European wide reputation as an innovative and influential globe maker and cosmographer and as one of the continents leading and most authoritative astrologers. Today he is remembered as an influential pioneer in the history of globe making and as a man who played a significant role in the events that led up to the publishing of Copernicus' "De revolutionibus" in Nürnberg in 1543.
