How To Predict New Job With Stellar Astrology - 1

By

Basilioli Sandro (Vediko), Italy

Part-1

Every person has a desire for rewarding career which brings them most satisfaction, when will I get a new job? It's time to change the job? Will the new job be in the government or private sector? These types of questions come to job, are very requested and the astrologer helps you for understanding of your challenges, your capabilities, your talents etc.. Here I will discuss about timing the new job, I will show and illustrate three different technique of stellar astrology. I will use natal chart in this first article and i will use the same horary chart for article 2 and 3. I will also give rules for every method but especially in this case for this Nadi astrology method so the readers can start working on it, the three technique are:

A): First article of Nadi astrology By Shri Umang Taneja

B): Second article of Khrisnamurti Paddhati (KP Astrology)

C):Third article of For steps theory by Shri Sunil Gondhalaker

Nadi Astrology By Umang Taneja

Introduction

Some Basic Rules from the books (Accurate predictive methodology & Nadi astrology & professions).

1) Ayanamsa

The ayanamsa for casting the horoscope used are Lahiri or KP.

2) Chart

Two charts must be prepared, the Nirayana bhava chalit and the Lagna chart with no cusps this can be calculated easily by any stellar astrology software.

3) Aspects & conjunctions

Aspects & conjunctions of all the planets are to be seen from sign to sign from the Lagna chart. There is a difference in the case of Rahu & Ketu. They give influence on the planets in the next sign which are up to 7° apart.

4) Positions & lordships of the planets

Are to be seen in the Nirayana bhav chalit chart.

5) According to Nadi Astrology a planet in a Horoscope is under the influence of:

- a) It's position and the lordship of houses in the horoscope.
- b) It's Nakshatra
- c) It's Sub lord.

6) The Dasha used is the Vimsottari dasha.

According to Nadi astrology Mahadasa lord is stronger than Bhukti lord and Bhukti lord is stronger than Antara lord.

7) Single house does not give any result.

For example say the 12th house then 12th house signifies a number of events.

8) Strength of a planet

- a) Strength of a planet is delineated by the strength of its planet, Nakshatra and Sub lord. If Sub lord signifies full combination of the event and also in the Nakshatra and Planet the event is going to happen surely. So the Planet is very strong.
- b) If Sub lord signifies the full combination of culmination of an event and Nakshatra and the Planet negate the event becomes nearly impossible to happen.
- c) If the Nakshatra and planet signify the full combination but the Sub lord negates ,the event can happen. The planet is rendered very weak.
- d) If Planet and the Nakshatra does not negate an event and support the Sub lord and Sub lord signifies full combinations the planet is strong to fructify the event.
- e) In some cases the Planet, Nakshatra and Sub lord could signify facilitator houses/ combinations in such a case the planet will have to look on others DBA [Dasha- Bhukti- Antara] planets. If other DBA will be strong then the event will take place otherwise not.
- f) If Planet and Nakshatra show the combination of the event and Sub lord signify facilitator houses the planet has full strength for culmination of the event in DBA.

This is how to judge the strength of the planets.

Cusps

Starting degree of the house is called the cusp or the cuspal degree of the house. The sub lord at the cuspal degree is called the “Cuspal sub lord”. The strength of the house is drawn from the strength of the cuspal sub lord. If the cuspal sub lord signifies the combinations connected with the house the house is strong. If it negates the event, the event will not take place even in the DBA promising the event strongly.

Results of Planets

There is a professional software *Horosoft* that gives the results otherwise you must pen down the following:

- 
- 
- 1) The lordship & the position of all the planets included Uranus, Neptune & Pluto..
 - 2) The nakshatra & the sub lords of all the planets.

Timing Of An Event

Dasha lord is stronger than Bhukti lord and Bhukti lord is stronger than Antara lord. If Dasha lord allows an event the event will take place in that dasha. To further pin point the event we will see the strong Bhukti lord which signifies the same combination. The event will take place in that Bhukti, however if Dasha lord is very strong the event can also happen in its Bhukti. The next step is to find or choose a strong Antara which will time the event. If the Dasha lord does not allow the event, in such case go to the next Dasha which allows the event. Similarly if Bhukti is not allowing the event, the next Bhukti is to be seen.

Transits of Planets

Transits of the Planets are to be seen to pin point the events precisely. First see the transits of any slower moving planet (Saturn, Jupiter, Rahu & Ketu). They should transit the relevant houses which signify the combinations of a specific event. Then go on to see the transits of fast moving Planets (Sun, Mercury, Venus & Mars). When they join the slower Planets, the event takes place. Any of the three Planets which signify combination for job may/ may not be from the DBA should

- Either conjoin in one house
- Or aspect each other
- Or transit the significator houses
- Or aspect them
- Or transit over their natal positions
- To see also the transit of the antara lord in the Nakshatra signifying the combination for job.

Readers that are interested can refer to Umang Taneja good book (Nadi astrology & professions)

Separative Planets

Separative tendencies are signified by Saturn, Sun, Rahu and Ketu. These kinds of Planets give clue to select with the combination of change of job the possible DBA [Dasha- Bhukti- Antara] as they signify separation from a job etc.

Combinations For Any New Job

For service 2, 6, 10, 11

For business 2, 7, 10, 11

2nd House: accumulation of wealth, money & bank accounts

10th House: it is prime house of career, name & fame.

11th House: this the prime house of financial gain, increments & promotion.

6th House: it is the prime house for service & working conditions.

7th House: it is prime house of business.

Combination For Change In Job

5th house : Being 12th from 6th it signifies leaving the present work.

9th house : Being 12th from 10th it signifies leaving the present position.

There should be also a separate planet that promote change in job or business in DBA.

No Job Or Obstacles In Career

5th house with 8th & 12th: This combination is worst for career as well in the job. It signifies suspensions, dismissals, scandals, insults and heavy loss of money. If the good houses 10, 11 are not signified in the DBA with this combination, it signifies total loss. If the native is not working he/she can not get it in it's DBA because:

5th house is 11 of the opposition

12th house is of the opposition

8th house is 2nd of the opposition

So to predict any possible new job the astrologer must look and see in DBA combination of 5, 9 for *change* and 2, 6, 10 & 11 for *new job*.

Here I will illustrate with a natal horoscope, as in natal charts it is difficult to have the right cuspal sub lord in this case for Nadi Astrology is the 6th CSL [cuspal sub-lord], to see if native has a tendencies to change often his work just see if there are 3 or more planets that signifies strongly combination of 5 or 9 for change and 2,6,10,11 for new job.
