About Dr. Andrew Dutta (Sri Indrajit)

Dr. Andrew Dutta is popularly known in the field of astrology and among his innumerable clients as 'Sri Indrajit'. He was born on 7th September 1975 in Calcutta (now Kolkata) in a family that is continuing astrological practice for more than 200 years.

Andrew's maternal great grandfather was Sri Surendranath Jyotir Vachaspati of Khulna in Bangladesh who handed down the lineage to Andrew's mother, Srimati Deblina, an eminent and illustrious astrologer of Kolkata. Even though he was initiated in to the field of astrology by his mother, Andrew was extensively trained and groomed by Kolkata's famous astrologer Jyotiryogi. Andrew was very fortunate to be the only disciple of Jyotiryogi who not only groomed and trained Andrew in the field of astrology but also taught him and shared with him all the experiential knowledge that Jyotiryogi gained in his 40 years of experience.

While staying in Hyderabad, India from 2002 to 2008, Andrew got an opportunity to be personally trained by late P.V.K. Punneswara Rao of Hyderabad who himself was the disciple of the direct student of K.S. Krishnamurti, late V.B.N. Sarma ji of Warangal, AP. As a result, his knowledge in astrology is something that goes many miles beyond the textbooks and is rich with the 'Guru-Shishya Parampara' of Indian culture.

Andrew is one of the all India record holders by scoring 99% in the Indian Secondary Council Examination, New Delhi, 1994 in the paper 'Structure of Commerce'. He graduated from the St. Xavier's College, Calcutta with a First Class in Accountancy in 1997 and completed his post-graduation in Business Finance from the University of Calcutta in 1999. Andrew was awarded a **Gold Medal** by the University of Calcutta for academic excellence and ranking 'First in First Class' in the University.

He completed his MTP from IIMT in 2004 in the field of Human Resource Management and is trained as a researcher. He was a Visiting Research Scholar to Bentley University, Massachusetts during 2004-2005, where he developed his PhD thesis in Management.

Before joining industry and then later into academics, he used to professionally consult in Kolkata and was a strong voice against the rationalists denigrating astrology. Andrew's first book 'Jyotish Shastrer Biagnanic Vitti', written in Bengali, is a very popular book amongst the astrologers and general public. Andrew was awarded the title of 'Jyotish Bibhakar' and 'Jyotish Vidya Ratna' by the Krishnamurti Institute Of Astrology, India in 2001.

Then in January 2008, Andrew launched his first video course – **"Home Video Course in English: Birth Time Rectification through Krishnamurti Paddhati"**, which sold thousands of copies and is still one of the largest selling KP astrology learning product in the world. Due to heavy demand from his large followers and learners, Bhagya Ratna Gems and Jewellers, Kolkata launched his second video course titled **"Professional Video Course—Practical Applications of Ruling Planets in Krishnamurti Paddhati"** on September 2012. Due to overwhelming response to such a unique video course, BRGJ Kolkata launched the complete KP video course in three levels titled **"Professional Video Course—Accurate Predictions with KP Astrology"** in May 2013.

To provide voice to many unsung astrology authors, researchers and practitioners, Andrew became the honorary Editor of the ***Journal for Advancement of Stellar Astrology (JASA)***, which started in July 2011 and is today the biggest and widely read online journal of astrology from India.

Today, Dr. Andrew Dutta (Sri Indrajit) is one of the most respected names in the field of Indian astrology both in India and abroad for truth, knowledge and correct prediction. He has published numerous articles and research papers in astrology in various reputed journals and magazines. These are also available in his website www.kpastrologeronline.com and www.astroandrewkp.org

In January 2014, Dr. Andrew Dutta (Sri Indrajit) received his Membership from the world's prestigious astrological association—American Federation of Astrologers (AFA).

Chapter 4

PHILOSOPHICAL FOUNDATION OF KP PRASHNA ASTROLOGY ACCORDING TO K. S. KRISHNAMURTI

Late Kuthur Subbarayaier Krishnamurti (K.S.K.) first ever mentioned about his system of horary or Prashna astrology in his own magazine **Astrology & Athristha** in **July 1964 issue under the tile “Horary Astrology or Aroodam”**. In this article, he solved the question by taking a number from the querist between 1 to 108. This is the first ever article written by K.S. Krishnamurti on his own system of horary astrology. The next two articles are found in **Astrology & Athristha, October 1965 issue**. Thereafter, in various subsequent issues, K.S.K started publishing his horary articles, and also some of his direct students and his elder son late K. Ganapathi also published their articles on horary articles.

On **30th Jan 1966**, K.S. Krishnamurti published his 2 volumes of book titled **Krishnamurti Padhdhati—Advanced Stellar Astrology**. But in these books, only in Vol. II, page 397, he talks about the future publication of his separate Horary Astrology book and nothing was discussed about the methods or techniques of Prashna astrology. Then in **1970 “Horary Astrology” was published by K.S. Krishnamurti**, which went on to be called as the 6th Reader later on after the 5 Readers were published in 1971. The 1970 Horary Astrology, which is called as the 6th Reader, is the most authoritative text in KP horary astrology till date that is available in public domain and deals with solving KP horary with 1-249 subdivision number system. However, there is also a lot of literature that is available from K.S. Krishnamurti, which is found in his own magazine **Astrology & Athrishta** speaks volumes about K.S.K’s approach and philosophy on horary astrology.

The philosophy and approach behind KP Prashna astrology has been beautifully captured and explained by K.S.K. himself on **page 65 and 66 of the 1970 Edition**. For the benefit of readers a snippet view is provided here. Interested readers are advised to buy

the 6th Reader from the current publishers in Chennai and read it. However, for the benefit of all KP astrology lovers, a snippet view is provided below as to why K.S.K. considered his system as more scientific than already prevailing Hindu/Vedic astrology methods.

Number preferred

But the defect in that system is that certain questions can never be answered using the horoscope erected for a particular moment of judgment. Suppose two people come and ask, within an interval of a few minutes. The horoscope, the aspects between the planets and the cusps of the houses, the mutual aspects among the planets themselves, will remain more or less the same, and therefore one has to predict the same result for both of them. (Time of event and the nature of the result). Supposing A and B stand for election in the same locality and both of them visit the house of an astrologer at an interval of 5 minutes, the astrologer has to necessarily offer the same prediction to both of them.

But if the astrologer were to ask for a number and accordingly he erects the horoscope.
H.A.—11

66

certainly (a) the position of the ascendant and the other cusps of the houses will vary, even though the planets may be in the same sign, same star, and same sub ;
(b) the houses occupied by the planets will vary :
(c) the signifiers will vary and hence one can correctly predict the diametrically opposite results.

Therefore, Krishnamurti Padhdhati—Horary Astrology— is most scientific and most useful for any question, and this gives precisely the correct answer and also the accurate date of fruition.

Grateful Acknowledgement: Horary Astrology-Advanced Stellar Astrology (Page 65-66) by K.S. Krishnamurti, 1970. Mahabala Book Sellers & Publishers, Madras, 1970

So, what we understand from the above, KP Prashna astrology deals with solution to the query

1. from the time of judgment of the astrologer

2. by using the KP horary numbers based on 1-249 sub-divisions of the star⁴

which results in different Ascendant/Lagna, different house cusp divisions, different planetary positions, different house occupation of planets and different houses signifiers. So, even if two persons come to the astrologer at the same time and asks the same question, the answer to them will vary because they provided **two different KP horary number based on the fructification of Karma that they are now ready to face.** **THIS IS THE FUNDAMENTAL PHILOSOPHICAL BASIS OF KP PRASHNA ASTROLOGY BY K.S.K. HIMSELF.**

⁴ In order to know the 1-249 subdivisions of the star/constellation/Nakshatra, the readers are advised to read my **Professional Video Course: Accurate Predictions with KP Astrology—Foundation Level.**
