Every nation depending on its own rules changes its rulers through an election (or any similar process). When one ruler changes to another, there is always to be expected some or the other change. Even though the old and the new ruler might be of same party (or same school of thought) still there can be changes definitely expected for each person is independent & distinct from another. When one country elects a new ruler, all other countries assess their relationship and as to how it might change due to this election.

This is the case with companies as well whether they are big or small. Even when a new member arrives in a family (partner or children or grand children) there are changes to be expected and anticipated. Sometimes changes are for the good and sometimes for the bad (causing us harm than help). A wise person is one who is able to assess the future to an extent in order to avert dangers or at least be prepared to face the dangers. For example, though a mother cannot stop her daughter in law to come into the house, she can at least be prepared to let the daughter in law take most of the control of the house; or if this isn't wanted, then the mother could set up a new house for the son and the daughter in law to stay, thereby averting danger.

Life is all about unexpected things happening and hence we should be able to find out the future to an extent. When life itself is this way, then what to talk about the path of moksha where problems are lurking each and every minute. Therefore sadhakas need to necessarily know the future so that they can take that into consideration while performing actions or sadhanas currently. For example, when a sadhaka's future shows him leaving an ashram and getting into fully worldly life then such a sadhaka should put more effort to spiritual sadhanas and gaining conviction about the futility of worldly life – then though such a situation might arise still the sadhaka will be able to face and avert it.

The debate of fate and free will isn't something that is going to give clarity to our mind. But put in simple terms, fate is like getting a glass of salty water; free-will is addition of more water to the salty water to make it less salty (amma's very beautiful example). But whether we use free-will or just succumb to fate is upto us (interested sadhakas should go through this beautiful and perfect explanation of fate and free will by Swami Chandrasekhara Bharati swamigal of Sringeri:

prathikoolanivaarakam mokshopakaarakam cha

http://www.advaita-vedanta.org/articles/The_Riddle_of_Fate_and_Free.htm).

When changes in even a small family causes a lot of changes in life then what to speak about changes in big planets that are present in our solar system. Ancient seers through not just mere analysis but through their meditative approach were able to find the connection between the various planets and our own life.

When we are attacked by a set of thieves, though all attack us the maximum effect will be from the strongest or biggest of thieves. Similarly the maximum effect will be from the biggest of planets. In the solar system, the biggest planets are Jupiter and Saturn (not including Rahu and Ketu in astrology). These planets therefore take the maximum time to revolve around the Sun – Jupiter takes one year to traverse 30 degrees (a house in the zodiac), Rahu and Ketu take one and a half years to traverse 30 degrees and Saturn takes two and a half years to traverse 30 degrees. Though other planets movements also do bring about changes, still since they stay for a short period of few months alone therefore the effect will not be easily noticeable (unlike these bigger planets). Thus whenever the bigger planets move from one house to another, horoscopes have to be analyzed again for changes that can be anticipated.

Some changes can be big and others can be small – it all depends upon an individual's horoscope, in particular the Lagna and the Moon sign of the person in relation to the changing planet's position. Changes also are good and bad. For example, when Jupiter moves into one's Lagna then changes with respect to job or activities is expected and it will be for the good for the person will gain more power and responsibility. But when Jupiter moves into the ninth from Lagna or Moon then if the person is following a spiritual master then the person will go away from the master; if the person is in the spiritual path (but not following any master) then the person will fall away from the spiritual path. Though it is very tough to survive such bad times, there are those who are able to survive the same through the grace of the Sadguru. Why leave it all to the Guru when we do our preparatory actions to avert a disaster?

Hence sadhakas should try to analyze their horoscopes frequently or whenever changes do happen in order to judge as to what to do and how to do. When the Guru doesn't have to help us in worldly activities, the Guru's grace will fall upon us helping us in the spiritual

Vetti yah vedaangam sah aapnothi paramam padam
prathikoolanivaarakam mokshopakaarakam cha

path. Ultimately it doesn't matter what we gain in the world for the world itself constantly changing will only lead to sorrow (eventually everything that we attain in the world will vanish). Therefore ardent sadhakas should strive through the system of astrology to avert dangers and seek the Guru for moksha and moksha only. Then such sadhakas will be able to achieve the goal of moksha here and now itself.

May we all strive to learn and implement this science of astrology so that through the prediction of future (problems of the future) we will be able to anticipate the future and thereby smoothly progress towards the goal of moksha; thereby may we all be able to ever rejoice in bliss here and now itself.

Shadbalas

Shadbalas are six sources of strength and weakness of planets.

The strength of the planets are measured in certain units called rupa. The six kind of strengths considered in indian astrology are as below.

- 1) Sthanabala (Positional strength)
- 2) DigBala(Directional strength)
- 3) ChestaBala(Motional Strength)
- 4) KalaBala(Temporal strength)
- 5) DrigBala(Aspect strength)
- 6) NaisargikaBala(natural strength)

SthanaBala: This is the strength the planet gains as a result of position ion the horoscope. For example a planet can be exalted, debilitated, own house, enemies house etc. Based on this the strength of planet is determined. The order of strength of any planet in order of highest to lowest is as follows: exaltation, own house, moolatrikona, friendly house, and debilitation.

DigBala: This is the strength based on which direction the planets are located. Jupiter and mercury are powerful in the East i.e in 1st house or ascendant. The sun and mars get their directional strength in the north i.e 10th house. Venus and moon get strength in the south i.e the 4th house. Saturn is strong in the west i.e 7th house.

ChestaBala: Sun and moon gains motional strength in the uttarayana course i.e when it passes through the house from Capricorn to Gemini, i.e Capricorn,aquarius, pisces, Aries, Taurus, Gemini. Mars, mercury, Jupiter, venus and Saturn in retrogression or in conjunction with moon get chesta bala. If they are with mars they are said to be defeated in planetary warfare and get chestabala.

KalaBala: Moon, mars and Saturn are strong in the night. Sun, Jupiter and venus are strong during the day. Mercury is powerful always. Malefics are stronger in the dark half of lunar month and benefics strong in the bright half of lunar month. Planets are stronger in their

weekdays, months and years. Sun – Sunday, Moon – Monday, mercury – Wednesday, Jupiter – Thursday, Venus – Friday and Saturn – Saturday respectively.

Drigbala: It is depending on the aspect each planet is subject to from another. Aspects of benefics give full strength and aspects of malefics reduce the strength of the planet. All planets look at houses or other planets by 7th to itself. Jupiter has 5th and 9th aspect apart from 7th aspect. Saturn has 3rd and 10th aspect apart from 7th aspect. Mars has 4th and 8th aspect apart from 7th. All other planets have only 7th aspect.

Naisargikabala: This means permanent and natural strength. Each planet by itself has some powerful irrespective of position. It is as follows sun, moon, venus, Jupiter, mercury, mars and Saturn.

Bhava Vivaranam - 5

The first trikona is the 5th house. Planets in Trikonas would not help in worldly pleasures and worldly life. Such people will be more spiritual oriented. Trikonas 5th and 9th represent the future and past of the person.

The mental capabilities are represented by the 5th house signification. Research capabilities are determined by many planets influencing the 5th house of 5th lord. Such people will have analysing capability.

It is also the house of tapo balam or power of austerity. People who have benefics in this house and many planets, will bestow the person with mantra siddhi.

Form of worship or deity a person is attracted to is also attained from this bhava. The lord of the house as well as planets aspecting the 5th house determines the deity for the person. Venus stands for devi, mars denotes hanuman, Rahu stands for deity dealing with corpses like kali, Mercury represents Krishna or vishnu, Sun shows Shiva, Jupiter stands for vedantic learnings without any particular form worship. If Jupiter is debilitated and 5th lord also weak, a person cannot apprehend formless worship of Ishwara.

This is also the house of children and predictions of female/male children to be born. This also stands for the portion between the chest and stomach in the body. Malefics in 5th also denote that the kids will be naughty and won't listen to the person. Based on afflictions may indicate early death of children, or children doing immoral deeds etc, not having many children etc. The question of number of issues can be made with respect to Jupiter and 5th bhava.

Name and fame a person attain's in life is seen from planets in 5th house. Bad planets in 5th house mean ill fame. But if benefic aspects are there to 5th lord or house, then results can be balanced. Jupiter in 5th house and strong makes a person highly devotional. Venus in this house without afflictions makes one an artist like painter etc.

Vetti yah vedaangam sah aapnothi paramam padam
prathikoolanivaarakam mokshopakaarakam cha

Karaka of the 5th house is moon. If moon is in 5th house then leads to lot of mental fluctuations like a bulb which is fluctuating due to voltage problem. Such a mind is troublesome to the person.

Jupiter is also the karaka for 5th house. Jupiter in 5th house will not give worldly benefits and life to the children as karaka of the house destroys the house effects.

If 5th lord is on dusthana, the person mind will be construed; he will have wrong approach towards life, wrong understanding of life, or troubled mind. 5th lord in 6th means mind will be his enemy. Moon in 6th means children will be like enemies. 7th lord in 5th house means a person will have immature partner, who is like a child.

5th lord in conjunction with lagna lord in a good house will give children and happiness from them.

When 5th lord and moon are not in strength, not well positioned, people will get into depression, get upset soon, get effected by small incidents in life, their mind is weak and can easily be disturbed, some spend sleepless nights, trauma, mental agony and even can have suicidal thoughts. Some even tend to become insane if mercury is also not well placed and does not have strength in the horoscope.

Mandi in the 5th house with many malefics influences will cause headaches to migraines for a person. Based on the effect it will vary from headaches to migraines. If 5th has malefics the person will have trust problems. People won't be able to have trust in relationships. Thus if 5th, 7th and 9th houses are not good, marriage is not advisable, as relationship wont sustain for long.

It is also difficult to muster trust and faith for such people towards the master or guru. They have to struggle a lot to gain this faith. Mind will be doubtful and suspicious if afflicted by Saturn. We often hear of cases where relationship breaks due to suspicious behaviour of partners or partners having suspicion towards each other.

The 2nd house has mandi, indicates destruction of family life. So the person got married and divorced and didn't marry again and has no children. The 2nd lord sun is in fifth house but is afflicted by mars and ketu. Lagna lord in 8th also makes the chances of having children less. 5th house has malefic aspects of rahu and mars and sun in 5th house. The 2nd house is fully afflicted, 2nd lord sun is also afflicted. 5th lord is with malefics and 5th house has malefics. So all factors made his chart weak to have children.

If malefic planets are in 1st, 7th, 9th and 12th and occupy the inimical signs, then will lead to extinction of the family.

Jupiter, the 5th lord, the planets in 5th house, the aspects to 5th lord and 5th house, associations to 5th lord and 5th house, malefics on either side of 5th house etc determine the 5th house prospects. As normal thumb of rule, if 5th associated with dusthanas will give less benefits.

Childlessness is dealt as an entirely separate topic in text "Jataka Parijata Vol 3". People interested can refer the same. The outcome to afflictions to fifth and its karaka can result in many things. Like children may not be born, if born may be mentally retarded and live for long. If not mentally retarded can be sick most of the time in life and cant enjoy. If not sick the life span may not be long. So depending on the intensity of afflictions and nature, such predictions are made. Generally people having Jupiter neecha or in dusthanas like 6th, 8th and 12th are said to have problems with menstrual cycle. This shows how problems while giving birth to children are also indicated. It may also show abortions, miscarriages etc.

Sarvartha Chintamani – IV

We have seen the 4th chapter of the work which deals with third house. We shall see the results of the 4th house from chapter 4 which deals with it. Fourth house has bearing on many aspects in life. Its significations are vast.

Fourth House

Neecha Bhanga Raja Yoga

A powerful yoga that many politicians and men of power had always is Neecha Bhanga Raja Yoga. This being lots of ups and downs in life. It's like sailing the boat on rough waters. People would see many good and bad things happen continuously. They rise too high to fall too low. It gives them name and fame and also troubles due to that, like getting bad name. People in high positions in administration, politicians, people holding high positions in life, business men etc generally have this yoga.

This yoga happens when two planets which are in debilitation are aspecting each other. It may also happen that one of the planets out of the two is aspecting the other planet, but the other planet is not aspecting the first planet. Say Sun is in thula and is in debilitation and mars is in cancer and is in debilitation. Mars aspects sun in thula and hence sun will have neecha bhanga raja yoga. But Mars doesn't attain neecha bhanga raja yoga as not aspected by sun.

As the name suggests it happens when two planets are in debilitation and are aspecting each other. Then both the planets get neecha bhanga or cancellation of debilitation due to mutual aspects and also have raja yoga in addition to cancellation of debilitation.

If more debilitated planets are in a chart, the more difficulties a person will face. Exalted planets will give comfortable to great life to a person. If both debilitated and exalted planets are present, then the person will experiences good and bad periods in life based on the dasa running. We see some people being very rich during life at some points of time and then later in life they loose everything and lead normal life. This is the result of having both the exaltation and debilitation of planets.

But in case two debilitated planets are aspecting each other, then the person will face both extremes at the same time. It's almost like leading a dual life. Outwardly a person may seem to be leading a great life and people who see the person will think great about him, but inwardly the person undergoes lot of turmoil in life. It's like smiling outside and crying within. The effects of this yoga are full when there are mutual aspects of both the debilitated planets.

Let's see two examples to understand the effects of this yoga.

Chart 1

Analysis: As we can see in the chart above, Sun and Saturn are both debilitated in the chart and opposing each other. Thus both the neecha planets are aspecting each other. This shows a strong neecha bhaga raja yoga happening over lagna and 7th house.

Lagna stands for the person, character and external appearances, health etc. 7th house stands for partners, social interactions, name and fame, position, travel etc.

The person didn't have a smooth married life and ended up in divorce. Enemies in 1st and 7th house show that marriage is not suitable for this chart. There will be rift and conflicts between the person and the partner. It would almost be like killing each other. Also Saturn is 4th and 5th lord and sun is lord of 11th house. So they will also be problems related to children, home, vehicles and properties. Sun stands for power and Saturn for people. So the person shall face ups and downs in life with respect to power and due to people around. This person currently has responsibility of running an organization. People do think great of the person, respect the person but at the same time the person faces lot of oppositions within from all people. Such people will be given power and position and shall also have to face the struggles while executing their role. Can find situations where people do not

support them, backstabbing etc can happen. Will lead to many trials and tribulations, but still they will achieve power and position.

So many planets are in lagna opposed by Saturn which is debilitated. This also influences the character of the person. Various facets of the personality are shown at different events in life. Person experiences even ups and downs in character. Person would have noted a substantial amount of difference in one's own behaviour in various periods of time in life. Would have been a witness to the change in character based on circumstances. Also would have had fluctuations in character. It is very difficult to judge such people due to many planetary influences on the lagna. They can change colors based on situations.

The 7th stands for name and fame. They will attract masses due to this raja yoga happening on the 7th house. They will be known by many people. But defame also comes along unasked. Fifth lord involvement leads to partners who are immature and troubles due to partners who are like children or child like partners. Children also cause problem and bring them defame and also fame. Similar is the case with mother in life. Mother will also be having power and position, being placed in the 7th. The person also gets properties from partner as 4th lord is in 7th house.

Thus we see that due to the neecha bhanga raja yoga person sees both extremes in various aspects of life depending on the axis along with this yoga happen. As its 1st and 7th has made a great impact on personal as well as public life of the person. The person has lot health issues always.

Analysis: Here we see sun and mars in their signs of debilitation. Mars aspects sun, but sun and mars do not have mutual aspects. So this raja yoga is partial. Sun stands for father, power and position. Mars stands for courage, brother and properties. As sun and mars are in kendra they attain neecha bhanga. But sun alone attains neecha bhanga Raja yoga here due to aspect of debilitated mars. So this shows a significant effect of the yoga on father, professional work etc.

This person is entrusted with lot of responsibilities and position. People in the organization appreciate and admire her efforts. She has earned name among the people in the organization. Her name has surfaced in papers with interviews and thus became famous. But at the same time at work place she had to struggle a lot and put lot of effort to get work done. Faced lot of non-cooperation from people. People posed obstacles in her path. But still name and fame came her way among so many people present. Even now there are rumours about the person regarding professional work among the masses. She had to undergo periods of lot of stress and strain in executing her job.

Her father was a bold man who retired as an officer in a very senior post in government services. Note that sun is in lagna and having the raja yoga. He had to undergo lot of trials and tribulations to secure such a place in office. He is now famous among many people through his renowned daughter. She is more close to father and gets lot of support from

father for her work. She gets little support from brother which is due to mars debilitated and just obtaining neecha bhanga. But 3rd lord Jupiter is in 11th house, so she does get benefits from brother. She also has major health issues in life.

Thus we see that this raja yoga has affected her professional life and also included her father in the yoga.

Effect of Guru's transition to Mithuna

Guru and Saturn are the slowest moving planets in the solar system. So their transitions have significant effect on the lives of people than other planets. A guest who stays for few days cannot create many effects in the house, but a guest who stays for long in the house will create some effects on account of stay in the house. Thus the Transition of Guru should be considered for predictions along with the birth chart of the person, to ensure accurate predictions. Gochara signifies the current planetary positions.

Sometimes it happens that dasa going on for a person as per his birth chart, may not be favourable for certain event to happen, but due to the gochara or current strength of planetary positions, the event may take place. Hence its significant to understand the impact of planetary transitions.

Jupiter or guru will be for an year in each house. Saturn moves every 2.5years. Currently Guru is in Vrishabha and will be moving to Mithuna by May30th. From mithuna Jupiter will be aspecting Saturn exalted in Thula. This helps to reduce the evil effects of Saturn.

Let's see the impact of Guru coming into Mithuna for each of the rasi's.

Mesham

If lagna or Chandra is mesham, Guru will be in 3rd house. This is not a favourable location for Guru. Guru is the 9th and 12th lord which is in 3rd house. So the benefits of Guru kripa will be less this year for mesham people.

Power and authority at work won't be much. 9th lord in 3rd house will give short travels. 9th lord guru will be looking at the 9th house, so the person will earn good name in the community.

Horoscope Analysis

Sri Sri Ravishankar

Wherever duality is present or people who are at the plane of duality are present, there will be attachments and aversions. Often these are directed even towards realized masters – people from one master’s place accuse or mock at the other master and vice versa. All this happens when the masters are ever unaffected by these – can they control their followers fully? Definitely no, as even Lord Krishna could not avert the mahabharatha yuddha (a very simple task compared to his state as a poornaavatara). Wise sadhakas would always do good to take whatever is good from the entire world and ignore the rest. AMMA thus will never comment about other masters and just give her opinion (which really is a perspective of the scriptures alone).

Nevertheless, today though Kali is at its peak still there are many realized masters treading the earth. These masters guide millions of sadhakas in one or the other way – the emphasis of one master would definitely be different from that of another master. But the ultimate focus is always on the non-dual reality of Brahman alone. In today’s era we are blessed to have a master like Sri Sri Ravishankar amidst us. Lovingly called as “guruji”, this master speaks in fluent English in very simple terms though deeply. The words themselves speak about the realized state of this master.

Though he is known for Art of Living, we shouldn’t forget that he often quotes from the scriptures and his words are direct or indirect takes from the scriptures. Just mention of one incident is enough to show his realized state – once a person asked him a question “Are you God”. To this, he replied angrily saying “what a question this is, I am obviously God”. Everybody was stunned hearing this reply but then he followed this up with “You are also God, everybody is God”. Not looking at the humor sense, we find the ultimate truth propounded in the scriptures being mentioned by this master in the simplest of words. At another time, he was questioned as to how to know we have realized – he replied that when the thought of God never vanishes from our mind then we have realized.

Unlike AMMA or Ramana Maharshi and all, this great master’s horoscope is something very special indeed as it is filled with a lot of yogas (similar to that of Sri Rama, Ravana etc.).

Analysis :

Second house and lagna lord Saturn is the 2nd house, the house is also aspected by Jupiter. This shows word power. Thus he could influence the masses with his speech and create transformation in them. Venus aspects the 2nd house and moon this is another factor why swamigal has a smiling face always in spite all the difficulties at the mission and health issues.

Venus and moon aspects also made swamigal soft at heart and a compassionate master. Lord of moon is Saturn and is with Saturn in rasi chart. This is indication of sanyaasa yoga. In navamsa chart as well the moon is in house of mars, all indicating sanyaasa yoga.

From moon we see that 5th house lord is in his own house which is mercury. Thus swamigal was highly intellectual and sharp. Jupiter also aspects mercury making swamigal highly devotional. Many planets influencing show the mental capacity. From lagna the 5th lord is

also aspected by multiple planets. Swamigal was adept in Vedanta and works on it. He was a scholar and well learned in all sastras. 5th lord venus is very strong is vargottama.

From lagna the tenth house has Jupiter and mars. This shows that swamigal was orthodox. Jupiter in lagna suggests that swamigal spread the truth in our scriptures far and wide through his preachings. Mars the lord of 4th and 11 is vargottama and is in 10th house. Hence swamigal became pontiff of prestigious Kanchi sankara mutt.

Swamigal has faced opposition from many people which can be seen as 6th lord mercury in its own house from lagna and 6th having sun from moon. But 6th house having sun made him victorious over all his enemies. We know that swamigal was put in prison for no fault of his. Being a great mahatma, he accepted it smilingly as well.

Bandhana yoga is present in swamigal's chart due to which he had to face imprisonment. From moon the lord of the moon sign Saturn and the 6th lord moon both are together. This condition leads to bandhana yoga.

The 3rd lord from lagna is a benefic Jupiter it is in Kendra and with mars, which is in vargottama. This gave swamigal enough strength to face all adversities with a smiling face.

7th and the 10th house having planets is partial chaturstara yoga. Hence swamigal travelled to many places too. Three planets in vargottama, lagna lord strongly placed have given strength to the chart. Lagna being aspected by mars, made him bold and strong.

One's brother will be suffering from disease if the 3rd lord is combust. The source of affliction will be in accordance with the planet in 6th or 8th.

The bhava whose lord is in 6th or 8th suffers afflictions. Like this afflictions to all bhavas have to be judged.

Any connection of the lord of a bhava to 6th or 8th suffers afflictions.

If mars or rahu in the 3rd there will be discord between querent and brother.

The queries regarding disappearance of brothers can also be seen from third house.
